

OUR STORY

Our passion is skin care. We'll make you feel great from the skin in. We take our skin care seriously, but promise to inject a sense of humour and creativity into everything we do. After all, we believe that a smile is the best 'look' of all.

SKINTRITION

Blending the best of nature with modern science. Skoah products are our healthy diet for your skin. Like any healthy diet, Skoah products are loaded with high quality, natural ingredients and devoid of low quality 'substitute'; ingredients. Plant extracts, natural minerals, and organic compounds are coupled with high performance active ingredients to ensure our products generate the results they are supposed to do.
